

JUNE 24, 2016

COMPLETE STREETS POLICY DEVELOPMENT WORKSHOP

Complete Streets policies help communities routinely create and maintain street networks that are **safe** and **convenient** for all users, including motorists, pedestrians, people on bikes, the elderly, and more. This workshop will engage community leaders and public officials in a discussion about how to craft an effective Complete Streets policy that meets the unique needs of each community. Participants will:

- Examine current policies and practices related to Complete Streets;
- Consider policy types and the 10 elements of effective Complete Streets policies.;
- Identify local Complete Streets goals and performance measures.; and
- Begin drafting a Complete Streets policy that meets local needs.

**FRIDAY, JUNE 24
