Create your cookbook!

The screenshot shows the 'My Cookbooks' page on the Create My Cookbook website. The page features a navigation bar with the logo and links for 'My Cookbooks', 'eCookbooks', 'Orders', and 'Help'. The user's name 'Bailey Bernier' is displayed in the top right. The main heading is 'My Cookbooks', with a 'Create a Cookbook +' button to its right. Below this, there are links for 'Products & Pricing', 'WeTypelt', 'Fundraiser Pricing', 'Design Services', 'Shipping', and 'Sell Your Cookbook'. A text block explains that new recipes can be added directly from the book designer. A table lists a cookbook titled 'Dinner at Dales' with options to 'Edit', 'Duplicate', 'Buy', 'Sell', and 'Delete'. The footer contains a 'Gift Certificates' promotion and a grid of links for products, inspiration, services, and support.

Title	Edit	Duplicate	Buy	Sell	Delete

Get Started Making Your Own Cookbook

* Book Title

Don't worry, you can change your mind and call it something different later.

What kind of cookbook are you making?

When do you want your cookbook(s) by?

See our [shipping guide](#) for production and shipping times. Don't worry, we won't remove your book if you don't finish by your due date.

Copy design from another cookbook?

Starter Theme

Start From Scratch

Blank

Emily & Scott's Wedding Cookbook

Country

Emily & Scott's Wedding Cookbook

Modern

Emily & Scott's Wedding Cookbook

Elegant

Don't want to commit? No worries. Themes can be changed later.

Now follow the prompts, answering the questions. Name your cookbook, specify what kind of cookbook, when you want your cookbook by and select a theme.

If you find yourself having a hard time picking a theme, no worries! They can be changed at any time.

Working on your book

When you first begin working on your book, it will come up with a prompt asking if you would like the Cookbook Designer Tour. I highly recommend doing this! It walks you through each step of working on the book.

Adding Photos

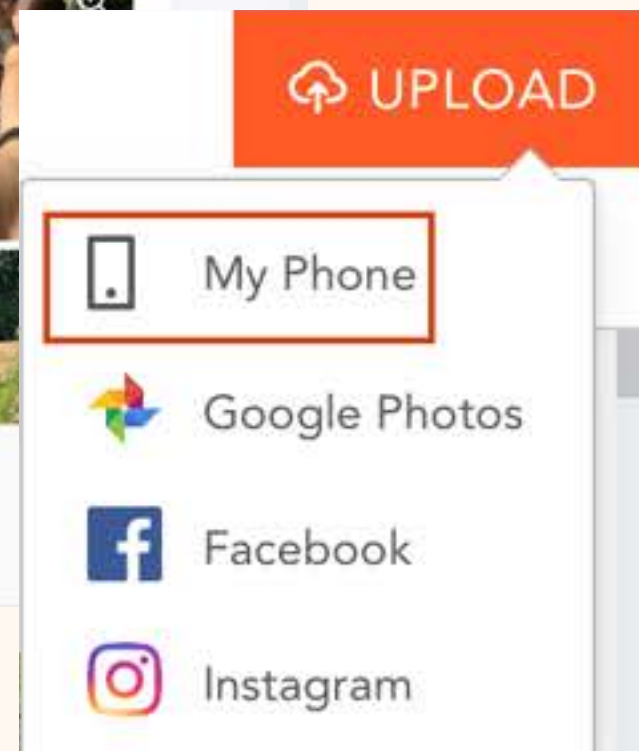

In the top right corner, select "Photos."

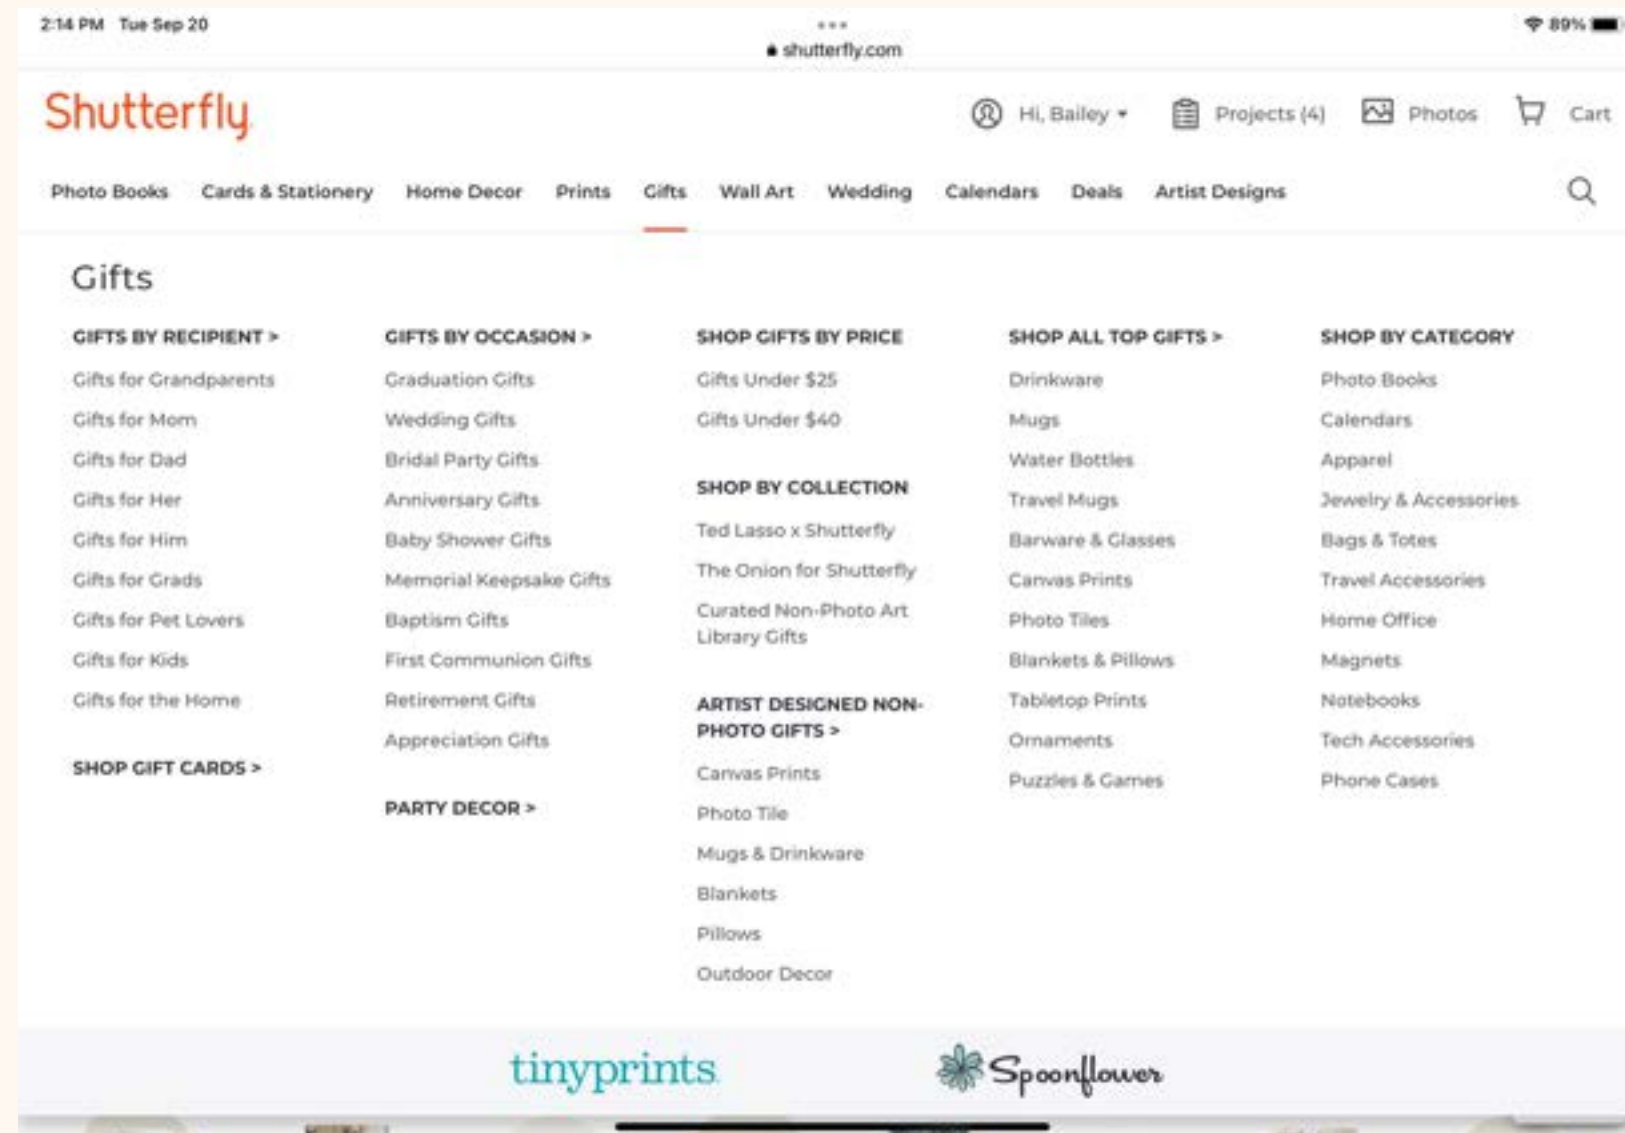

Already uploaded photos will appear, but to add more, click the orange upload button on the top right.

It gives a few options from where you would like to upload photos. If you choose anything that isn't your device, remember you will need to log in to access those photos.

Let's make something!

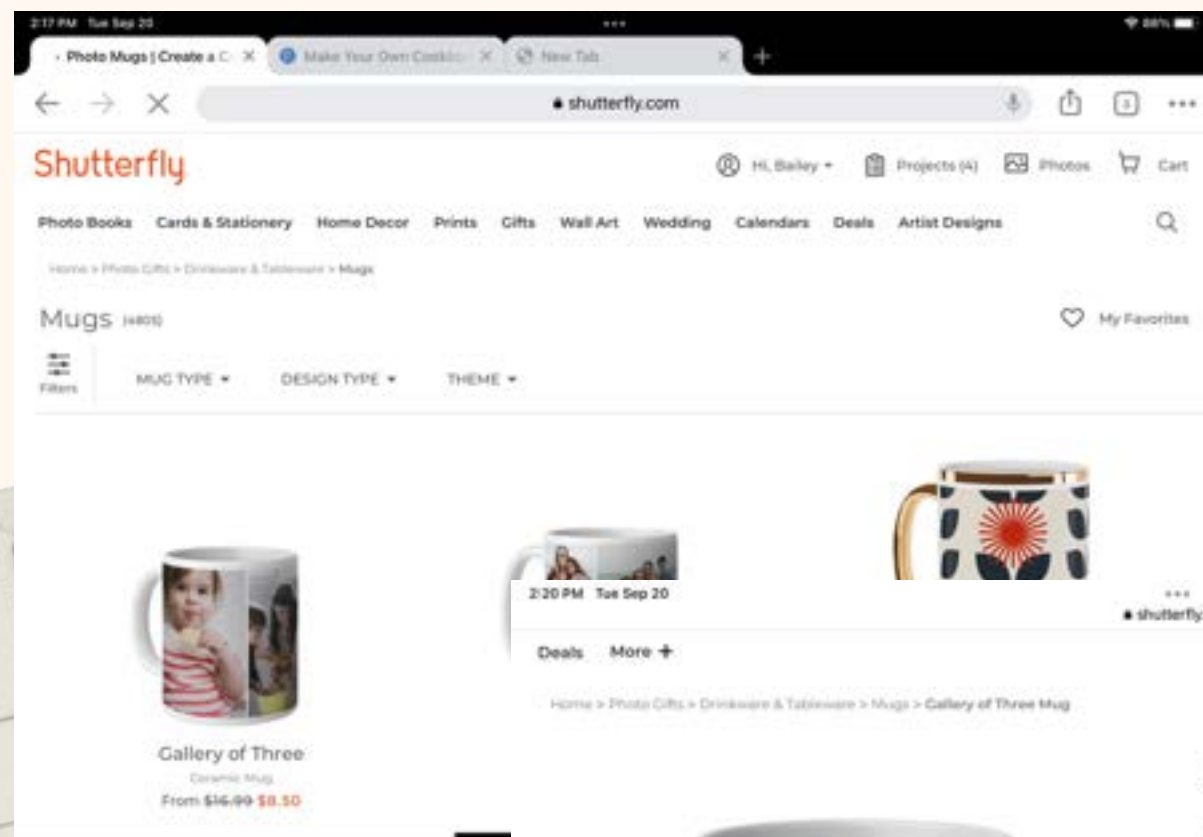

The opportunities Shutterfly offers are endless! Clicking on the gifts tab gives you options of projects to pick from.

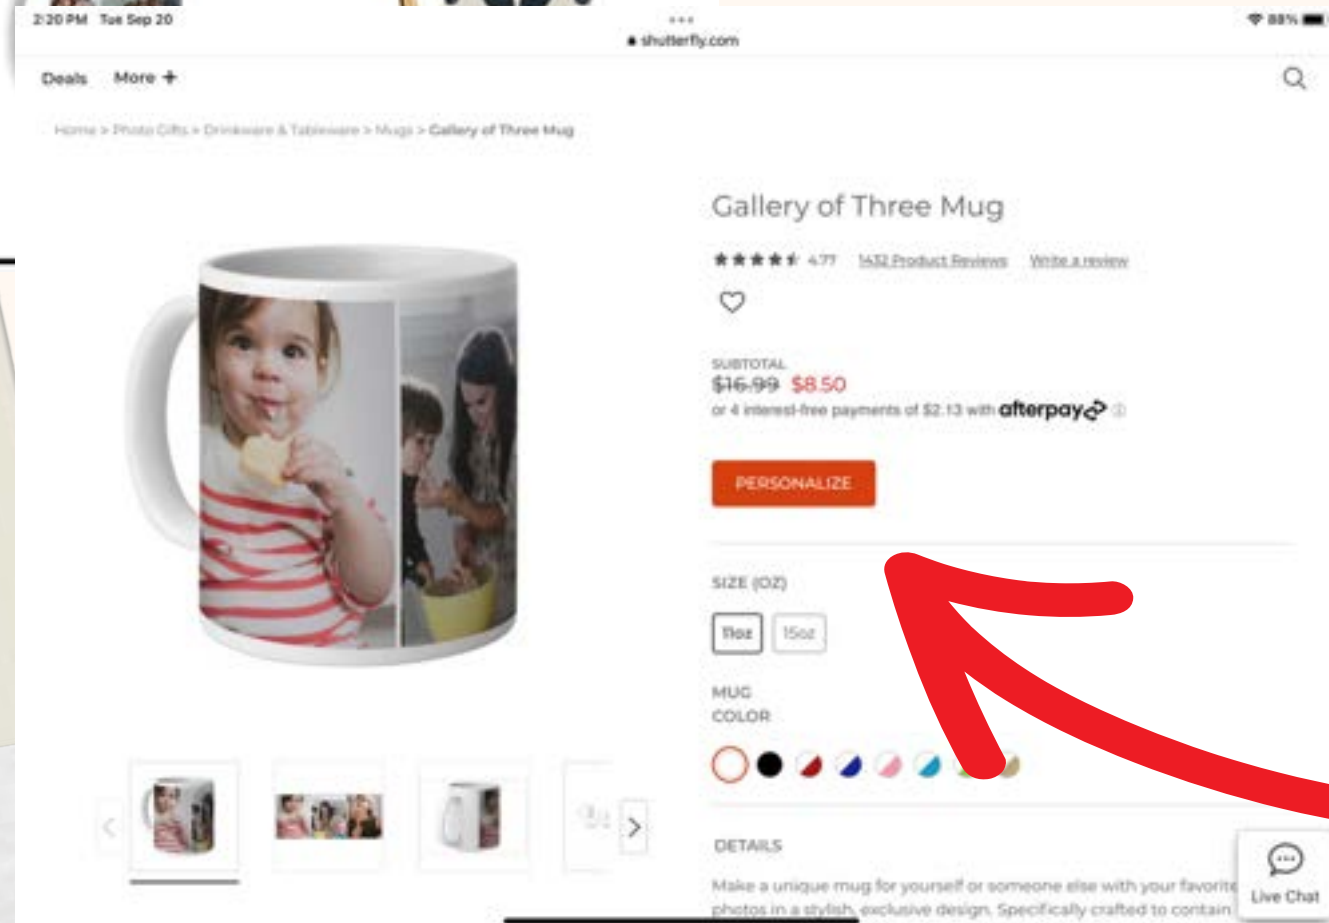

Making a mug

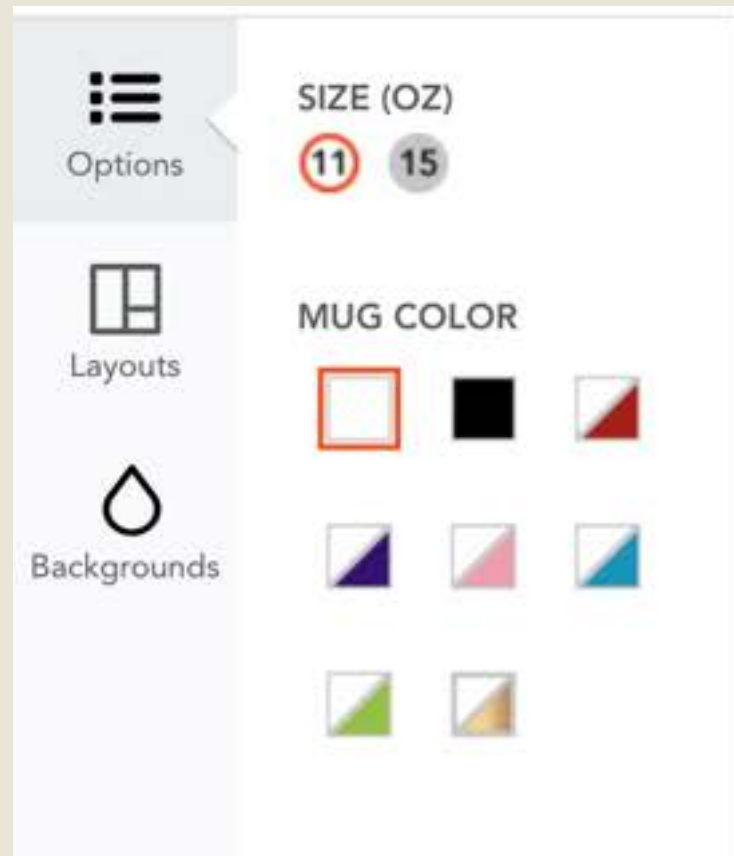

Shutterfly has almost 5,000 different mugs to choose from!! I'm going to pick the first one that holds three photos.

Once you have chosen the product, hit the orange personalization button!

Within the editor, along the left hand side you have Options, Layouts, and Backgrounds.

The options give you choices of mug size and mug color.

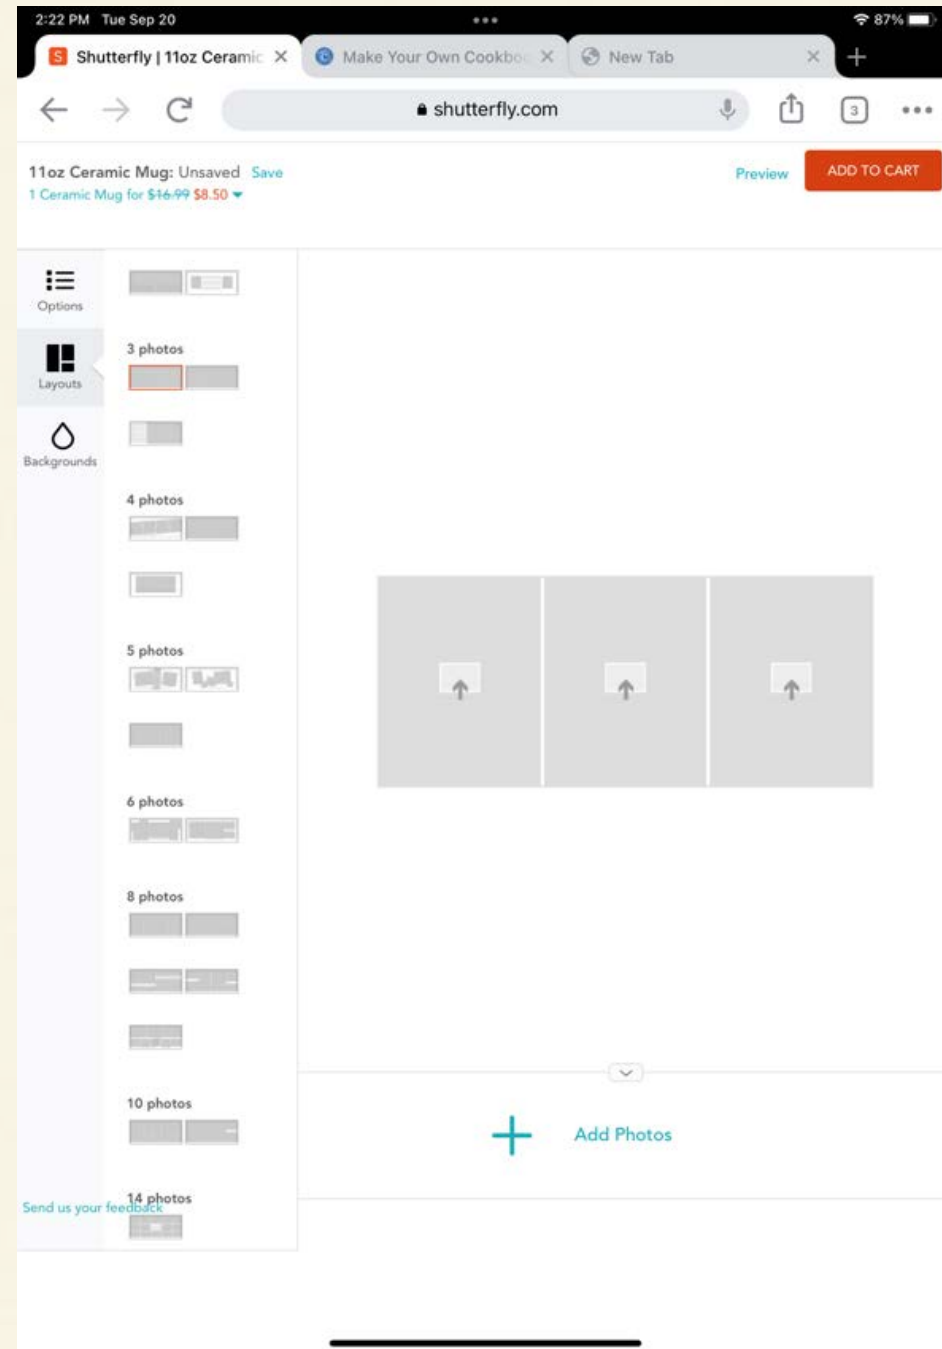

The layout option allows you to add more photos if you would like to, changing the layout on the mug.

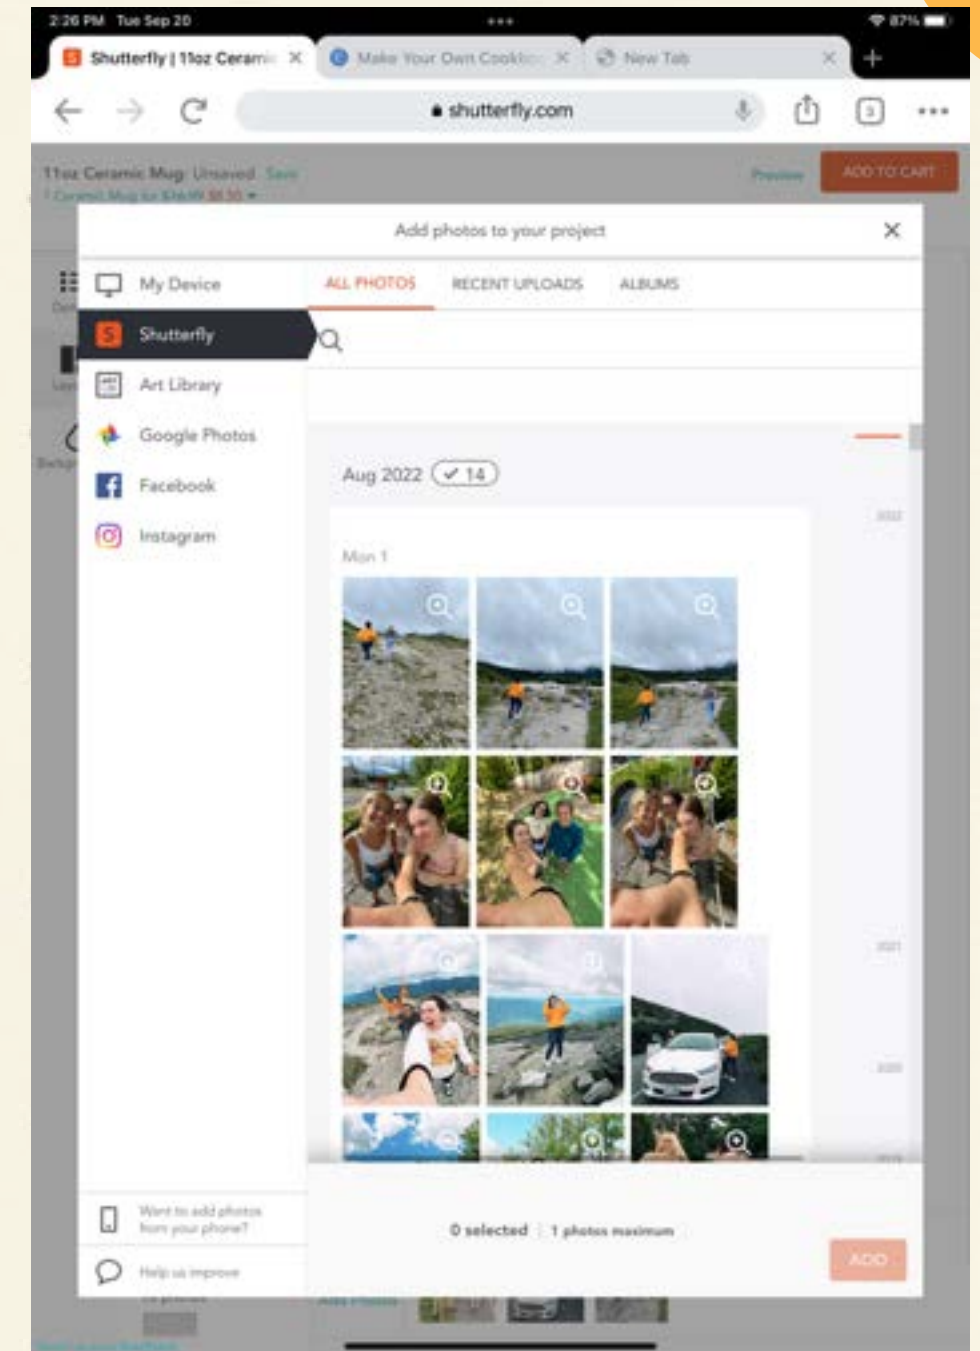

The background will be behind your photos, and they have tons of patterns as well as solid colors to choose from.

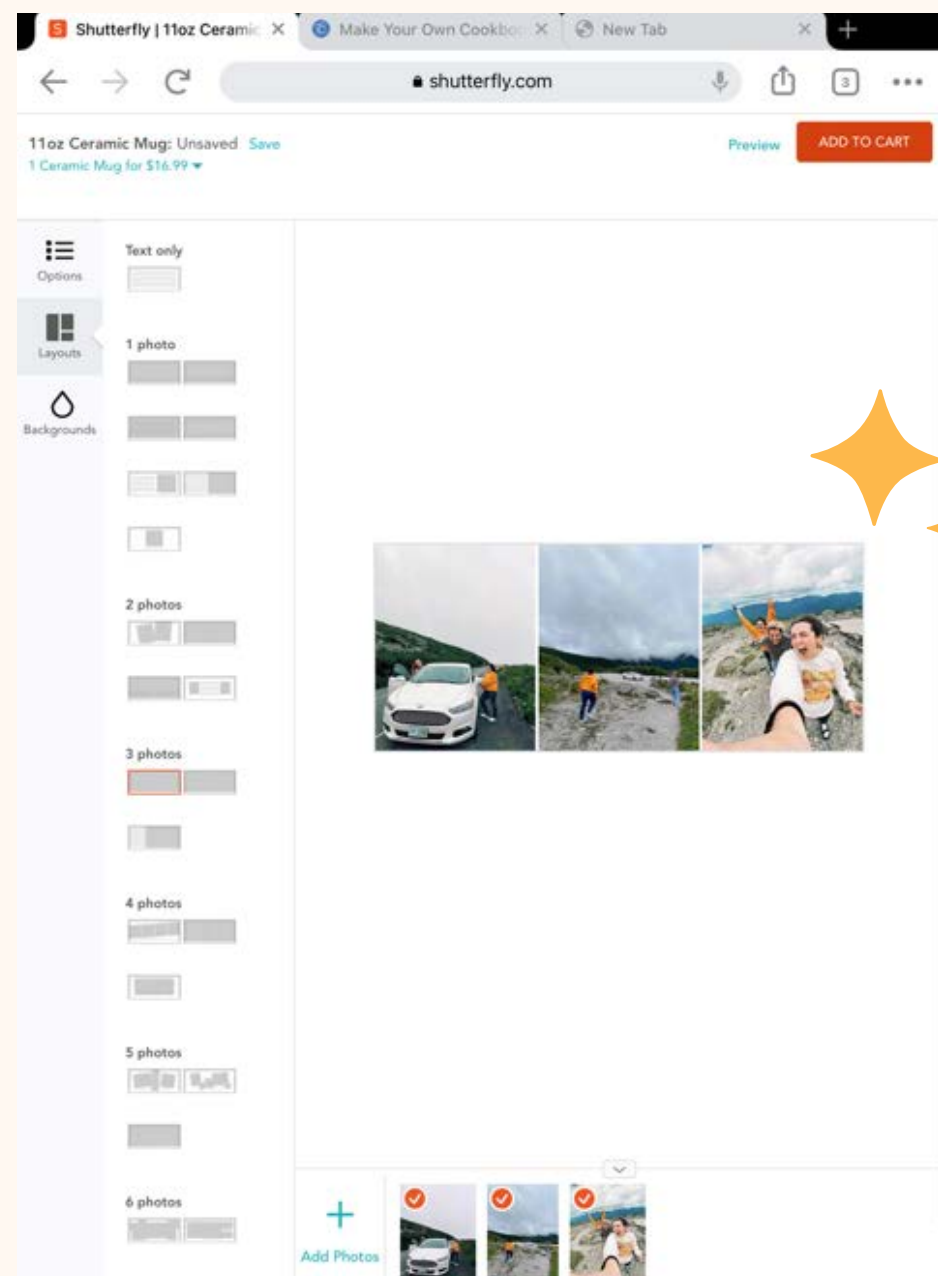

This is what it looks like when adding photos.

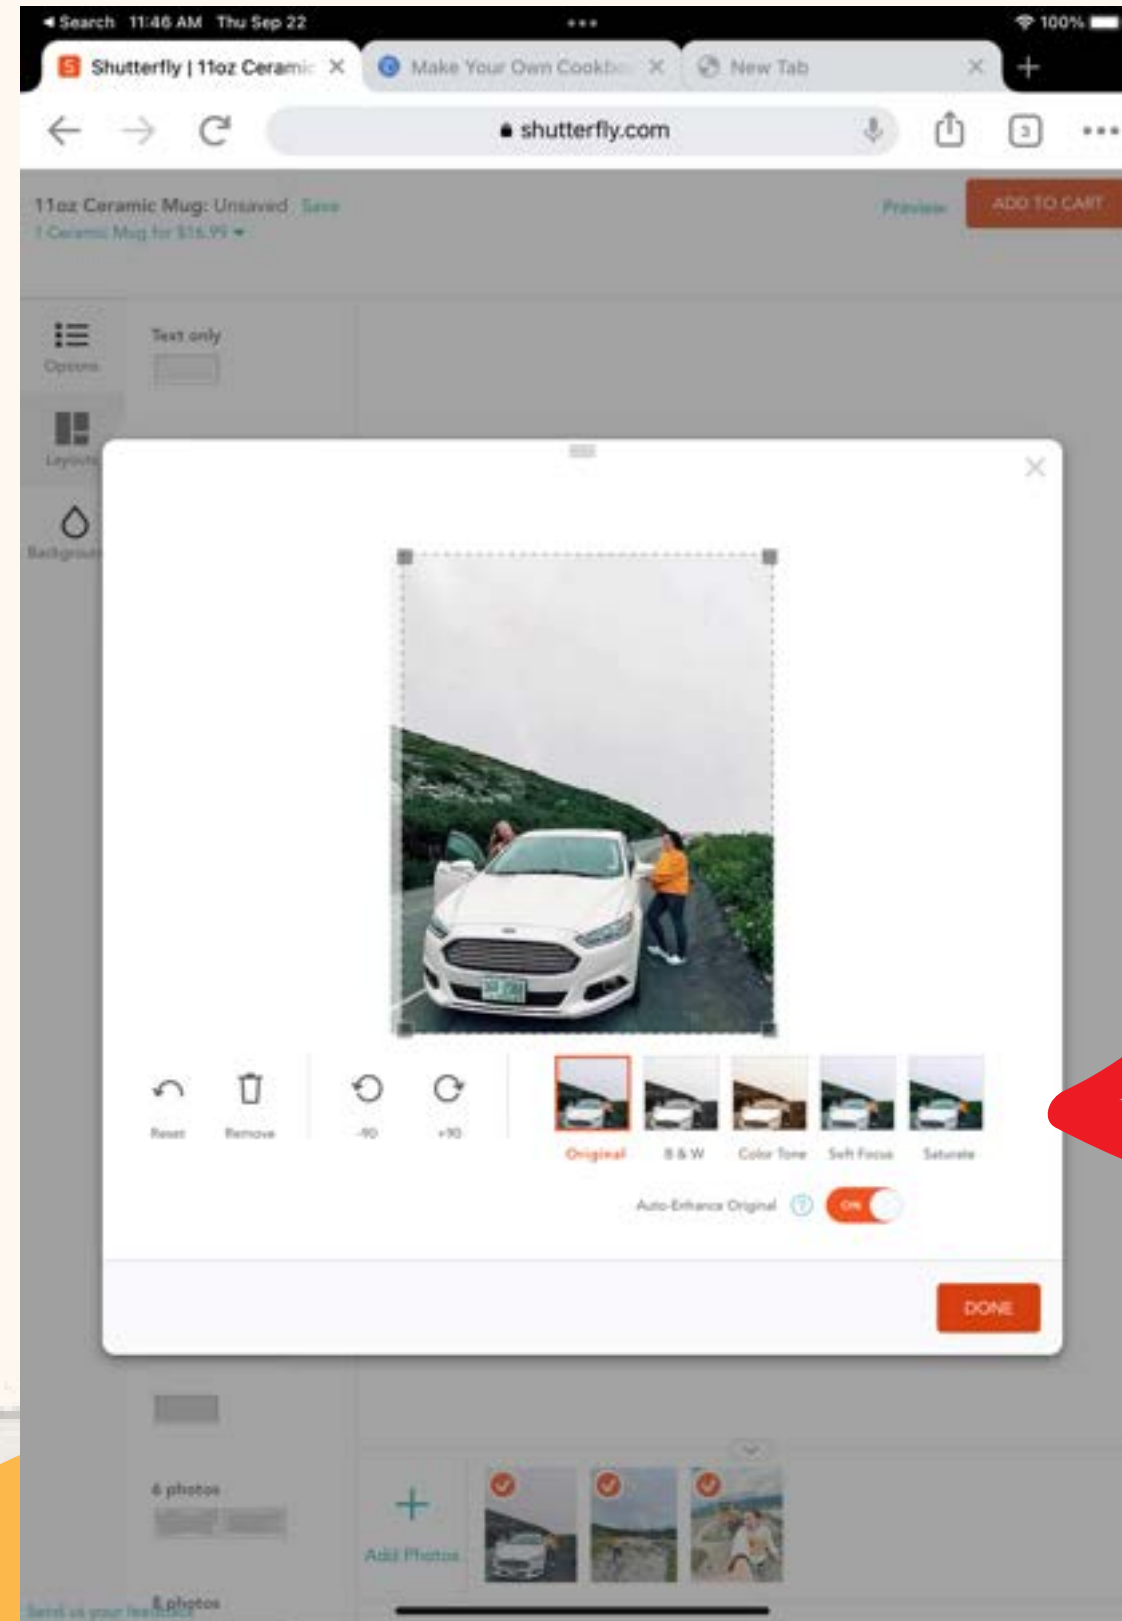

When you click on one of the grey squares it will open up your uploads, allowing you to choose a photo.

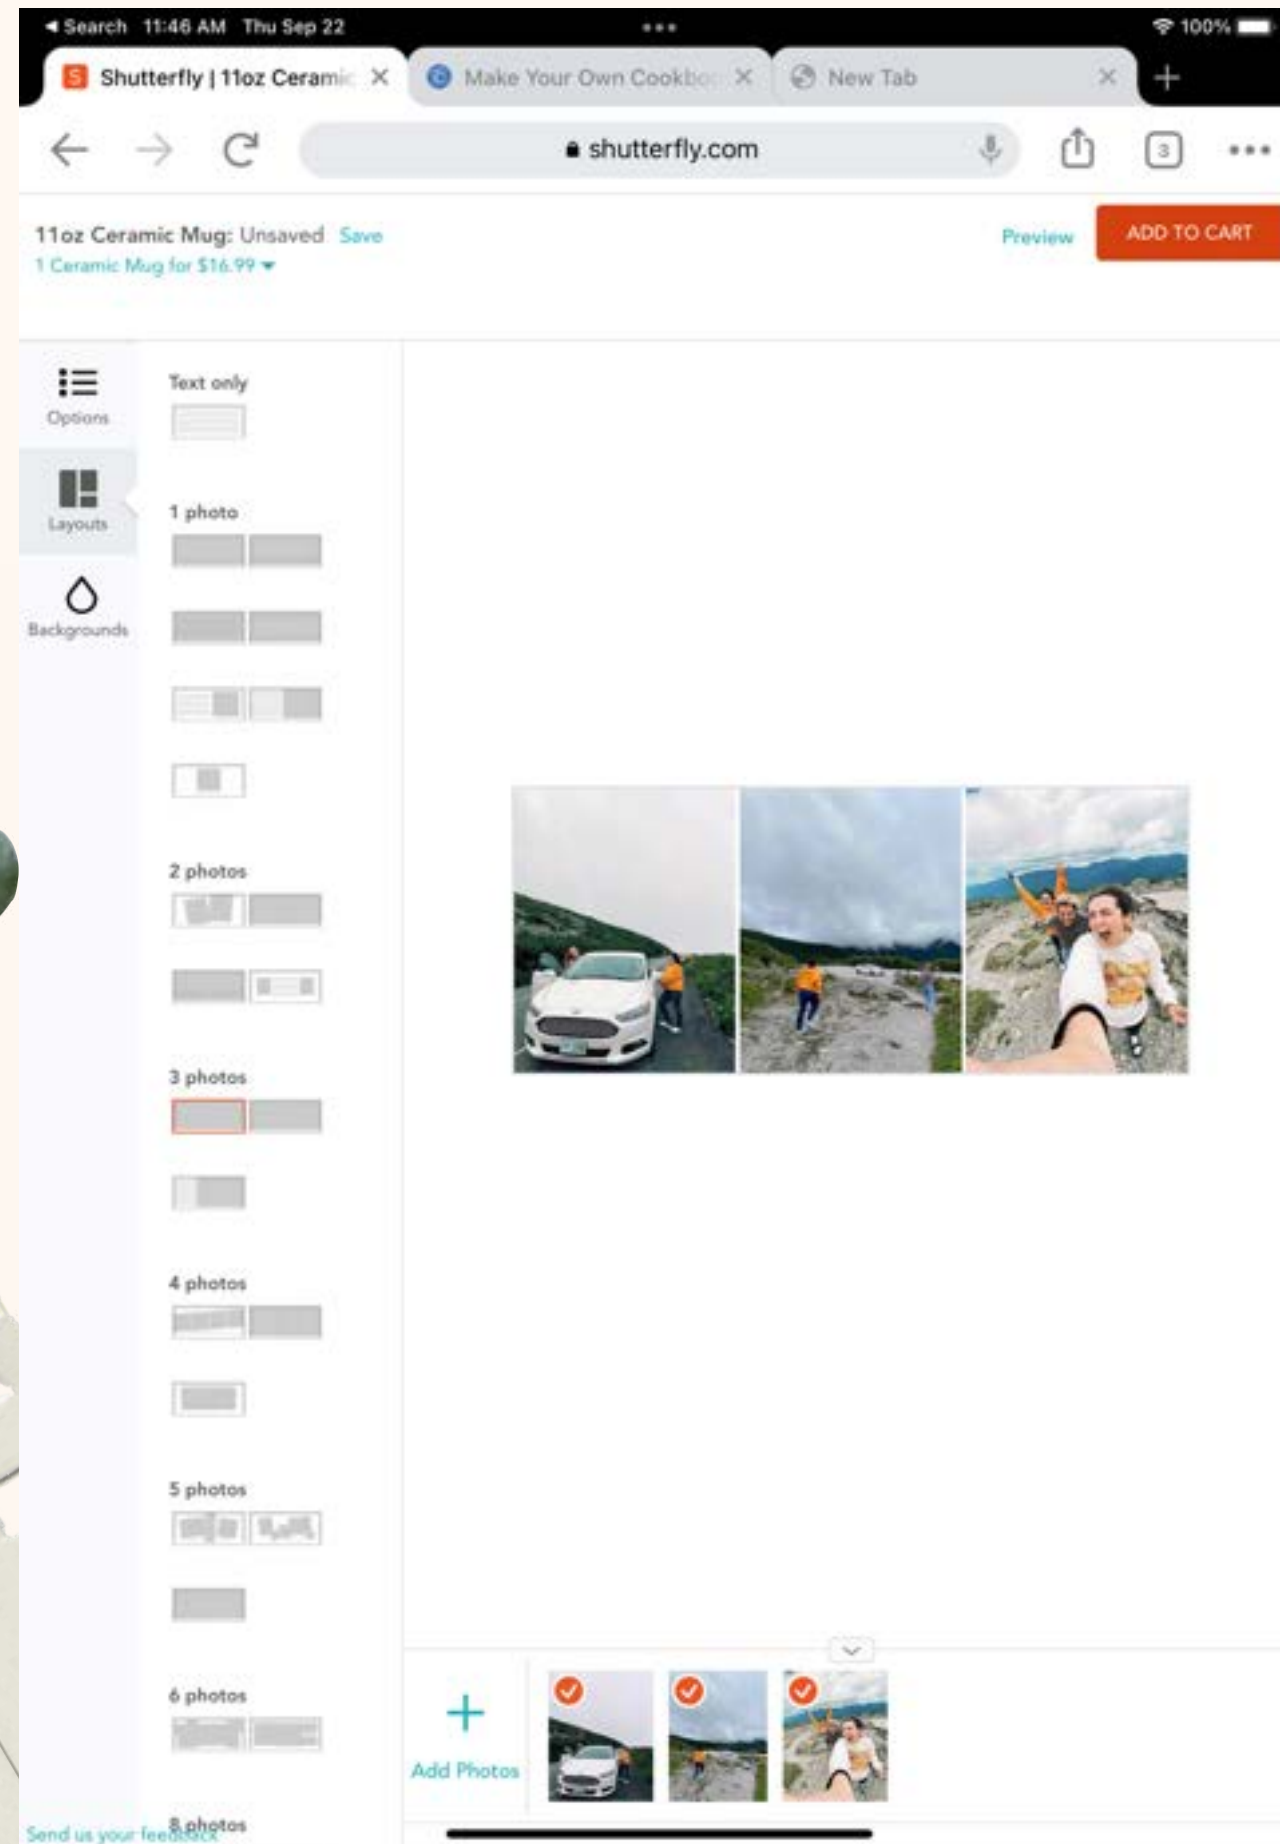

Once you have added your photos, you can click on them to open up a photo editor.

The photo editor is simple, giving just a few options. You can remove it, rotate it, crop it, and they also give you five filters to choose from as well.

Once you think you're done with your mug, in the top right hand corner there is a preview button.

Ceramic Mug holds 11oz, measures 3.75" x 3", and will be printed as shown.

The preview button shows you the beautiful mug you have made! You can see the patterned background, and that I chose pink and white for my mug color. If you see anything you want to change, click the back to editing button at the top of the page. If it looks good to you, add it to your cart!
