

Ms. Linda's Take & Make: Turkey in a Turtle Shell

Visit [TumbleBooks](#) on the library catalog and search "When Turkey Grew Feathers" by Tim Tingle to read this week's Take & Make picturebook. Then continue to the next page for instructions on making Ms. Linda's craft.

Materials Needed:

- Paper plate
- Construction paper
- Feathers - real or you can make your own
- Scissors
- Glue stick or tape

Draw a turtle shell on the paper plate. Draw a turkey head with neck and legs similar to the ones on the left on construction paper. Give your turkey a face.

Color your turkey pieces with crayons. Cut the turkey pieces out. Glue or tape the parts together. Head on one side at top, legs at mid body below shell. Make big and little feathers.

Build your turkey around the turtle shell. Place the small feathers at the lower end for a tail. Stick out feathers to form a wing beyond the legs and before the tail similar to the left picture.
